

Radenska, Radenci

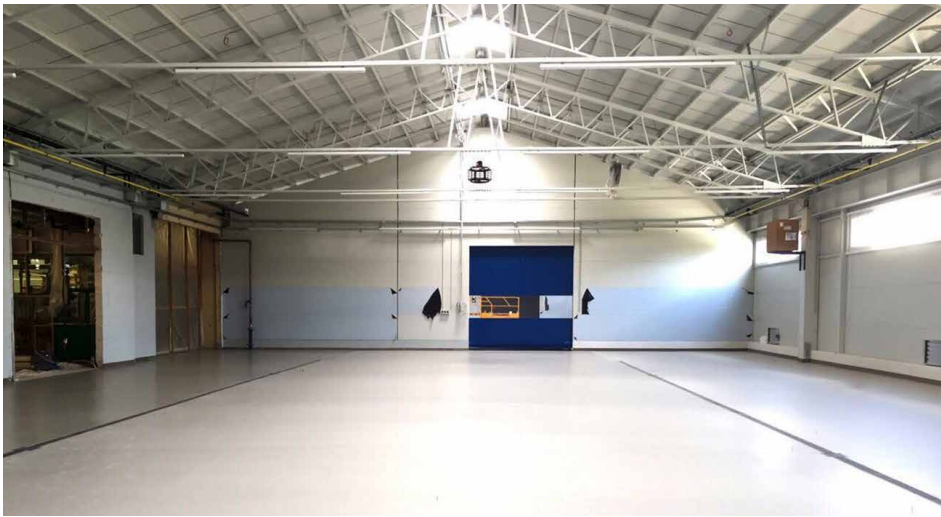

Radenska, podjetje s tremi srci v svojem logotipu in 140-letno tradicijo, je v naši regiji znana kot vodilni proizvajalec mineralne vode in brezalkoholnih pijač.

Zgodba se je začela leta 1869, ko je mlad študent medicine Karl Henn zajel vodo znamenite "bublje", čemur je kasneje sledila ustanovitev blagovne znamke Radenska.

Radenska je danes globalno podjetje, ki izvaža svoje proizvode ne samo v sosednje države in ostala evropska tržišča, temveč tudi v ZDA in Kanado. Leta 2014 je Radenska postala del skupine Kofola.

Projekt: Izgradnja novega proizvodno-skladišnega objekta dimenzij 20x60 metrov zaradi potreb po povečanju kapacitet polnjenja mineralne vode.

Značilnost: Kooperacija med podjetjema ACO in Sika. Zaključni tlak Sikafloor PurCem in ACO Modular linijski požiralnik zagotavljata zanesljiv in trajen stik med tlemi in sistemom za odvodnjavanje.
